## Welcome at Bettinehoeve

Bettinehoeve B.V. ([www.bettine.nl](http://www.bettine.nl)) is a growing company with ± 140 employees. The activities are carried out at 2 locations in Etten-Leur. Since 1982 the company has focused on collecting goat's milk and producing and marketing fresh and matured goat's cheese under the brand name Bettine and under private label.

Every year, approximately 50 million liters of goat's milk is processed into cheese at two different production locations. This cheese is sold in the Netherlands and other European countries to retail and food service organizations. In 2014, the company put a milk powder drying tower into operation under the name Goat Milk Powder B.V. Here, in addition to high-quality (organic) goat milk powder, WPC (whey protein concentrate) is also produced for application in baby and sports nutrition, among others. The production of the second milk powder drying tower has recently started!

Since the beginning of 2016 Bettinehoeve is part of the Swiss dairy group Emmi (<https://group.emmi.com/che/en>). The culture within Bettinehoeve is distinguished by combining entrepreneurship with craftsmanship. The core values of ambition, professionalism, responsibility and cooperation are of paramount importance to us!

For more information about Bettinehoeve, please visit [www.bettine.nl](http://www.bettine.nl). Or check out our social media channels on Facebook, Instagram & LinkedIn.
